

# EDUCATE, DISCIPLE, DEVELOP THE NEXT CHAPTER

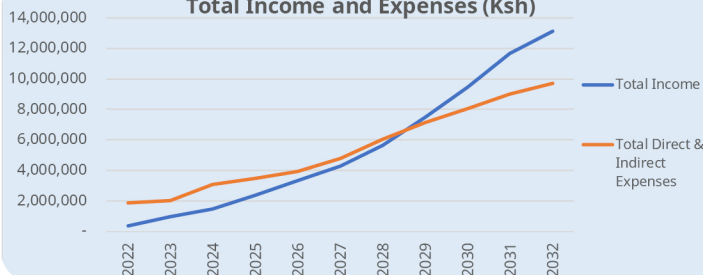

In 2022, Ndoto accomplished a long-time dream of opening its own private Christian school. Ndoto Academy is a separate program from Ndoto's longstanding sponsorship program, which continues with more than 300 students throughout the country from first grade through university. Through this school, Ndoto provides a high-quality, Christian education to children in the area while creating jobs, promoting sustainable economic development, making disciples, and giving hope in a community in dire need of it. We now have 115 students in pre-school through third grade with a plan for expansion to 600 students through ninth grade by 2036.

Ndoto Academy launched with the financial backing of Ndoto. The Ndoto Academy business plan predicts that the school will be self-supporting through student tuition payments by 2029. Fundraising in the US will fund construction and capital improvements in order to keep the tuition affordable for the community.
